

London 24 August 58

Am. 29. 58

My dear Dr. Gray

I have no memorandum of what
Wright's Orchids were: and I dis-
tributed them among the journals as soon
as determined about their names to
you without keeping a copy. I
shall be happy to give you an ac-
count of them if you will copy out
Latin on my list.

I should have been very glad to buy
Fendler's plants: but alas! the
loss of £500 a year from the Anti-
cultural party cripples me I
forbid my thinking of buying col-
lections for the present.

I shall send you soon the
comp. of *Polka Cerebi* &c.

Dr. Asa Gray
Cambridge
Boston
U.S.

MS. A. 9. 2. 29
NOV 27 1858

AUG 29 1858

in which I have worked up Stelis
a dreadful genus, of which I find
more than many species.

If you have a worn specimen
of Acrida I wish you wd put
through any parasite that may
come, as I have mislaid my
copy of the genus and want
to study it.

Very truly yours
John Lindley
